## **METHOD STATEMENT**

### **RENO DRIVE SEALER**

1. Kill all weeds with an approved herbicide.
2. Any oil or grease to be removed with a heavy duty detergent.
3. Power wash the drive to remove dirt, moss etc and allow to dry.
4. Roller or spray apply Reno-Anticide (at the rate of 3-5 sq m / litre) to kill all moss algae spores and allow to dry.
5. Re-sand all joints where necessary.
6. Roller or spray apply two coats of Reno-Drive Sealer at the rate of 3 sq m / litre for the two coats.
