METHOD STATEMENT

RENO-ROOF

1. Remove flaky and loose material, moss, lichen etc using high-pressure washer.
2. Repair the roof structural points such as ridges, hips, gullies and gables and re-dress any faulty lead work. Replace any broken or damaged tiles.
3. Apply Reno-Anticide to kill all moss, lichen spores and allow to dry - application is 3 - 5 sq m per litre.
4. Roller or spray apply 2 coats of Reno-Roof at the rate of up to 3 sq m per litre for the two coats.
